LOOK, THINK, CHOOSE

Worksheet 5 of 5

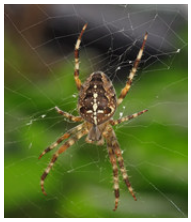

Tiny Garden Neighbors | Suggested ages 5-7

Name: _____ Date: _____

Read each question and all the choices. Circle one answer. A grown-up can read aloud; you can point or say your answer, too.

Print on US Letter at actual size, or choose Fit for A4. Use single-sided printing for activity cards.
Black-and-white printing is suitable.

25. Which small insect carries food with strong jaws and has bent antennae?

A. Spider	B. Ant	C. Slug
		

Tell someone how you decided, or write a few words.

26. Which jumping insect has shorter antennae than a typical field cricket?

A. Grasshopper	B. Cricket	C. Snail
		

Tell someone how you decided, or write a few words.

Questions 27 to 28

27. Which shell-carrying animal has eyes at the tips of its long tentacles?

A. Stag beetle

B. Snail

C. Slug

Tell someone how you decided, or write a few words.

28. Which flying insect spends its young nymph stage underwater?

A. Monarch butterfly

B. Dragonfly

C. Ladybug

Tell someone how you decided, or write a few words.

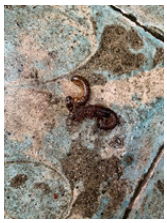

Questions 29 to 30

29. Which armored garden neighbor likes damp places beneath logs and stones?

A. Pill bug	B. Monarch butterfly	C. Hummingbird
		

Tell someone how you decided, or write a few words.

30. Which animal grips its soil tunnel with tiny bristles instead of legs?

A. Centipede	B. Praying mantis	C. Earthworm
		

Tell someone how you decided, or write a few words.

ANSWER GUIDE

For the grown-up

Tiny Garden Neighbors | Suggested ages 5-7

Keep this page separate from the child's activity. Read directions aloud when helpful, and invite the child to explain their ideas.

25. B - Ant

An ant uses its antennae to explore and its jaws to carry things.

26. A - Grasshopper

Grasshoppers generally have shorter antennae than crickets.

27. B - Snail

A land snail's longer tentacles carry its eyes.

28. B - Dragonfly

Young dragonflies live in water before becoming winged adults.

29. A - Pill bug

Pill bugs need moist places so they do not dry out.

30. C - Earthworm

Earthworms use small bristles to help grip the soil.

Keep exploring

Choose a printable question set. Talk about how you found each answer, then make up one question together.
