Tell someone how you decided, or write a few words.

ANSWER GUIDE

For the grown-up

Doctors, Nurses, and Health Helpers | Suggested ages 5-7

Keep this page separate from the child's activity. Read directions aloud when helpful, and invite the child to explain their ideas.

8. C - Walk

Crutches give support while a person walks.

9. C - A bandage

The nurse is putting a small bandage on the elbow.

10. B - Physical therapist

A physical therapist helps people practice movement.

11. C - Thermometer

A medical thermometer measures body temperature.

12. A - The child's height

The height rod shows how tall the child is.

13. B - Child being weighed

A medical scale is used to check a person's weight.

14. A - Inside an ear

An otoscope has a little light for looking inside an ear.
