COMPLETE STORY + QUIZ

Benji Fixes the Breakfast Robot

Benji Fixes the Breakfast Robot | Suggested ages 5-6

Benji follows a simple sequence to find why a toy breakfast robot stopped delivering toast.

Read, talk, and discover

The complete story is followed by questions and a separate answer guide. Read aloud together, pause to talk, and take your time.

Print on US Letter at actual size, or choose Fit for A4. Use single-sided printing for activity cards. Black-and-white printing is suitable.

Part 1

Benji's toy breakfast robot usually rolled a plate from the counter to the table. This morning, it beeped but did not move.

Part 2

Benji wanted to push every button, but Dad suggested checking one thing at a time. They unplugged the toy's charging cord first.

Part 3

Benji checked the wheels. Both turned freely. He checked the plate tray next, and it clicked into place correctly.

Part 4

Then he looked at the little front sensor. A toast crumb covered it, so the robot seemed to see an obstacle.

Part 5

Benji brushed away the crumb with a soft cloth. Dad connected the charging cord, and they tried the start button again.

Part 6

The robot rolled forward, stopped at the table marker, and delivered the empty practice plate exactly where it belonged.

Part 7

Benji drew three reminder pictures: check wheels, check tray, and clean sensor. He taped the card beside the robot.

Part 8

Benji learned that checking parts in order can reveal a problem. Random button pressing would not explain what went wrong.
